PROFILE SUMMARY

Passionate Android Developer with over 6 years of expertise in crafting innovative, data-driven mobile applications. Proficient in architecture patterns, clean code principles, and industry best practices. Seeking a dynamic role to leverage and expand skills in software development, with opportunities for career growth.

WORK HISTORY

SENIOR ANDROID DEVELOPER – QBURST TECHNOLOGIES (05/2023 - current)

- Improved project efficiency by optimizing performance and systematically addressing and resolving bugs for smooth functionality.
- Implemented requested changes and features according to client specifications and preferences.
- Performed thorough code reviews to maintain coding standards and uphold best practices, ensuring the quality and reliability of the codebase.
- Coordinated smooth collaboration among mobile, backend, and QA teams throughout the project lifecycle.
- Keep up with the latest advancements and emerging technologies in the Android development landscape.

SENIOR ANDROID DEVELOPER – LEADER GROUP (10/2021 - 05/2023)

- Collaborated within an Agile Scrum team, actively contributing to Continuous Integration and Continuous Deployment pipelines, resulting in a remarkable 70% increase in delivery speed.
- Designed, Coded, maintained, tested, implemented, and delivered applications with 100% on-time record and according to service level objectives.
- Developed a reusable module to efficiently handle location-based requirements.
- Achieved a significant 50% improvement in application speed and memory usage through the implementation of optimized performance algorithms.

SENIOR ANDROID DEVELOPER – CODINGHANDS INFO (12/2020 - 09/2021)

- Developed advanced programs and implemented design enhancements for over 5 existing applications.
- Built and maintained an application that scaled to accommodate 20,000+ daily users, collaborating with cross-functional teams in product development, design, and maintenance.
- Collaborated with clients to understand needs for improved functionality, leading to effective communication with engineers and clients to develop enhancements, resulting in a 50% boost in client satisfaction.
- Improved app performance and memory usage through proper optimization methods.

ANDROID DEVELOPER – SBL CORP (03/2020 - 12/2020)

- Incorporated robust security protocols to ensure secure payment transactions within the mobile application.
- Efficiently managed the entire change request processing, seamlessly coordinating with UI, Backend, and Mobile teams to achieve a 100% success rate.
- Increased the overall app performance and scalability by 50% through proper code optimization methods.

ANDROID DEVELOPER – CODINGHANDS INFO (03/2018- 02/2020)

- Actively participated in agile/scrum meetings, contributing to sprint planning and progress updates.
- Enhanced functionality and design for existing applications through advanced programming techniques and conducted code reviews to ensure adherence to coding standards and best practices.
- Worked closely with product managers to define app requirements and user stories.
- Mentored junior developers, providing guidance on Android development best practices.

TECH STACK

Android Studio, Kotlin, Java, Jetpack Compose, Kotlin Multiplatform, Flutter, Android SDK, REST API, Retrofit, Volley, Payment Gateways, SQLite, Room DB, Github, Gitlab, Bitbucket, Jira, MVVM Architecture, Hilt, Google APIs, Location

services, Firebase, Play-store Publishing, AdMob, Socket, Pusher, Open source libraries, Multi-language apps, Navigation graph, Coroutines, Figma, Adobe XD, Zeplin etc.

SKILLS & QUALIFICATIONS

- Inquisitive nature to drive improvements
- Supreme organization skills
- Ability to have difficult conversations professionally
- Flexible and focused
- Creative troubleshooter and proactive initiator
- Conflict resolution with high level of accuracy
- Time and Task management

EDUCATION

DIPLOMA IN COMPUTER ENGINEERING – UNIVERSITY OF KERALA (2014 – 2017)

- Coursework : Software Development, Advanced Programming, IT Leadership and Communication (GPA: 7.0)

MAJOR PROJECTS

- **FOX HR**
Cutting-edge *Human Resource Management application* customized for forward-thinking startups and companies. Specializing in efficient workforce management, covering the entire employee lifecycle from onboarding to offboarding and beyond.
- **BANJO’S ORDERING APP**
Revolutionary *e-commerce mobile application* for food ordering, enhancing user experience and simplifying the ordering workflow. Leveraged latest technologies to optimize efficiency and improve customer satisfaction throughout the entire process.
- **NAFAE**
An *online service marketplace* facilitating seamless connections between freelancers and customers for a wide spectrum of day-to-day needs, spanning from household services to specialized professional assistance.
- **PISTACHIO**
A feature-rich *social media application*, incorporating advanced functionalities to promote user interaction and enhance the overall social networking experience. Implemented innovative technologies to ensure seamless navigation and optimal performance across diverse platforms.
- **RADIUS DIRECT**
Cloud-based communication mobile application offering comprehensive features including conference calling, real-time chat, and seamless slide sharing capabilities. Designed to streamline remote collaboration and enhance team productivity with intuitive user experiences.
- **MAKASH APP**
Mobile wallet application that revolutionizes financial transactions, providing users with secure, convenient, and efficient digital payment solutions. Seamlessly integrating with diverse payment methods, the app ensures smooth and hassle-free monetary transactions.
- **ABODELY**
Robust *social media platform* tailored for homeowners, facilitating seamless communication and interaction within residential communities with advanced technologies to enhance user experience and promote engagement within the context of home and neighborhood environments.
- **RCRC APP**
Comprehensive *government employee management app*, streamlining administrative tasks and enhancing workforce efficiency. Seamlessly integrated features for payroll management, leave tracking, and performance evaluation, optimizing organizational processes.

INTERESTS

- Numerical reasoning & Sudoku
